Aectra Plastics

Bulgaria

For more than 20 years, Aectra Plastics has specialised in the distribution of high-quality technical plastic granulates by leading manufacturers. Our qualified team offers you comprehensive service – they're there for you from the initial idea until your product is ready for large-scale production. Our private company excels with decades of experience and meets the needs of its customers locally with its four warehouses, logistics and material on stock. Aectra Plastics is part of the Hromatka Group, an one of the leading distribution groups serving the European polymer market.

A strong team

as development partner

A good idea also raises a lot of questions and we're there to help you when it comes to assessing feasibility, costs and manufacturing. Which polymer meets the special requirements of a particular application, which standards have to be considered, what unnecessary cost factors exist and which processing method is the right one?

Make Aectra Plastics, a leading expert in the field of polymers, part of your product development process and benefit from the extensive experience our technicians have to offer. We know our way around the world of polymers like no one else – we're the right partner for you.

The HROMATKA GROUP is one of the leading distribution groups in the European plastics market. With our local brands and strong partners, the HROMATKA GROUP has an extensive portfolio with an international orientation and great technical expertise. Highly-qualified local experts are active in ten countries and advise customers in order to provide solutions to their problems. The program is completed by the group's own compounds, which are manufactured in two factories under the brand name SAX® Polymers.
